Rumors of War with Spain-Concentration of Troops in Florida.

We are in the receipt of some intelligence which, we confess, startled us a little at first, but, upon reflection, we are hopeful that we attach much more importance to it than it deserved. It comes from a source which is entitled to every consideration. and we deem it proper to submit it to our readers as it comes to us.

We are assured that a prominent merchant in Louisville Ky., an intimate friend of the Secretary of the Treasury, has advised his correspondents of the receipt of letters from a high source at Washington assuring him that there will be a war between the United States and Spain within sixty or ninety days; that the cabinet was divided, but that the war party would prevail, and advising him to arrange his business, which is very extensive, as soon as possible.

The gentleman from whom we derive the information also communicated the follow- thu siastic audiences. ing intelligence, derived from an officer of the United States Army who professed to have been advised with, upon the matter to which it relates, and which gives plausibility, if not probability, to the rumor above referred to. He says:

"While the difficulties with spain were most promising of trouble, under the Soule regime, our government quietly concentrated several thousand troops in Florida, convenient for embarkation, and actually loaded one or two sailing vessels with heavy guns and ammunitions, and had them ready near at hand. The port in Cuba was selected at which they were to land.

"The plan was, with the regulars, to run across to this fort, which could be done in a ing. few hours, surprise and sieze it, throw up earthworks with all speed to defend the position by land, with fleet sufficient to keep the port open. Thus situated they were to call for volunteers, and ten to fifwere then to move with all dispatch upon the principal points of the Island. Quitman and some others are in the secret .-This was the programme.

"Such was the position of affairs when hat singular rumor come up that the Cabinet had changed its policy, and benceforth was to be pacific. Whether this last posiresult must show. One thing seems cer- It is hereditary in her family. tain-the government does not show the expected activity in respect to the Sioux campaign. They are tardy about it.
